## PAVEMENTS AND ROADS: THEIR CONSTRUCTION AND MAINTENANCE (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Pavements and Roads: Their Construction and Maintenance This book is a compilation of articles which have appeared in recent volumes of The Engineering and Building Record, edited with a view of eliminating whatever was of timely or local interest, and arranged by divisions for convenience of use. The science of paving and the need of proper maintenance of pavements is yet comparatively little understood in this country, and the same is true in even greater degree with regard to roads. The editor of the journal named was led to give the matter special attention by seeing what was done in Europe, during his visits there, and finally began an investigation of work on streets and roads in England, France and other countries, the result of which was the gathering of a large and very valuable mass of information in regard to the subject. Of this everything likely to be of practical use in America was printed in The Engineering and Building Record, and is given here in more convenient shape. With it appears a large quantity of matter from American sources, including the prize essays on Road Construction and Maintenance submitted in the competition instituted by the journal named in December, 1889. It will be seen that the great bulk of the book is made up of records of experience and statements of cost in different places. The comments are based on this experience.
