

Early Visual Skills

By Diana Williams

Speechmark Publishing Ltd, United Kingdom, 1998. Spiral bound. Book Condition: New. 1st New edition. 300 x 224 mm. Language: N/A. Brand New Book. Intended for professionals working with children with under-developed visual perceptual skills associated with language delay or other communication difficulties, this practical manual provides photocopiable activities designed to stimulate and develop visual attention and discrimination skills. The majority of the activities are non-verbal and are therefore suitable for children with limited spoken language, including the deaf, sensory impaired or those with autism or learning difficulties. It is primarily aimed at the pre-school age group, but adaptable to suit the needs of a range of children. It offers visual perceptual tasks designed to help develop specific concepts such as colour, size and shape, which can also form part of an attention training programme.
