This groundbreaking new book reveals never before known information about the time traveler from 2036 using the name John Titor. In 2000, a man calling himself John Titor began posting online claiming to be a time traveler from 2036. His mission Travel to 1975, make contact with his own grandfather and retrieve an obscure IBM computer to help in the reconstruction of American infrastructure after a nuclear war with Russia in 2015. John Titors postings generated intense interest and hot debate at the time. Even now in 2010, people still find Titors writings incredibly compelling today. John carried a warning from the future about the coming Second American Civil War he survived in his own time and will be unavoidable in our own. This book represents the first, only and most comprehensive investigation into the John Titor saga ever. Conviction of a Time Traveler includes a good overview of the Titor story up to as late as 2010 and a deconstruction and analysis of his postings. Later in the book, the author investigates the implications from Titors posts and attempts to rebuild Titors world based on his own words.
