A survey of the birds of the region may be made. PHYSICS Text: First Course in Physics, Millikan and Gale. Laboratory: New Laboratory Manual of Physics, Coleman. The purpose of the course in physics is to lead the student into an understanding of the physical phenomena continually taking place about him. The daily observation of the student is the base on which the course should be constructed. He already knows that most of the simple phenomena do occur, and it remains for him to learn why. The laboratory work should form an integral part of the course. Avoid spending too much time on measurements. Skill in manipulation will be acquired as the student...
